3. OPERATIONAL REVIEW

Safety of our employees is paramount

- Regrettably one fatality in the current year
- Overall, TRIFR improved to 2.36 from 3.39 in December 2018
- Safety of our employees remains a critical focus, the goal is to achieve zero harm
- Education and good decision making the key to building a sustainable safety culture
- Continued focus on safety campaigns and programs through the period

Managing assets in the face of a soft market

- Reduction in ferrochrome production to 206kt
 - Installed capacity utilisation of 87%
 - Production cuts in Q2 to manage inventory levels
- No significant disruptions in electricity supply
- Multiple year wage agreements concluded in 2018

Controlled costs despite headwinds

Total production costs per tonne increased by 7.2% (from Dec 2018), influenced by:

- Increase in reductants prices
- Increase in electricity prices, effective 1 April 2019
- Higher allocation of fixed costs and standing charges

Below is a breakdown of C3 production costs:

4. FINANCIAL OVERVIEW

Revenue and profit

3% increase in revenue period on period to R2.788bn

- Ferrochrome revenue increased by 2% to R2.391bn period on period
- Chrome ore revenue increased by 5% to R397m period on period
- Higher volumes of chrome ore and ferrochrome sold
- Lower commodity prices
- Significantly lower HEPS by 61% period on period

EBITDA reconciliation to profit

Focus remains on driving efficiencies to counter negative macro influences

Ferrochrome and Chrome ore revenue

- Higher due to weaker R:\$ exchange rate and higher volumes but negatively impacted by lower prices

Foreign exchange (loss)/gain

- A function of the R:\$ exchange rate

Operating expenses

- Cost per tonne increased by 7.2% from 31 Dec 2018. Key factors were:
 - › Reductants, ore & power costs

Merafe corporate costs

- Inflationary increases

Current tax

- Decrease is reflective of lower profits and taxable income

5. DIVIDEND

Interim dividend

- In light of significant market uncertainty, the Board has decided not to declare an interim ordinary dividend
- A final dividend will be considered based on the 31 December 2019 year end results

6. OUTLOOK

Outlook

- Global uncertainty continues to impact markets negatively
- Inflationary pressures persist for South African producers
- Production cuts expected from key markets with surpluses likely to narrow or reverse
- Market expected to respond with some improvements in pricing
- Merafe remains ungeared and well positioned to take advantage of any opportunities
- We will continue sweating our assets and driving efficiencies
- In the absence of any opportunities, we will continue returning cash to shareholders in line with dividend policy
