Board Charter

INTRODUCTION

The board of directors of Merafe Resources Limited (“the Company” or “Merafe Resources”) acknowledges the need for a board charter as recommended in the Report on Corporate Governance for South Africa, 2016 (King IV).

This board charter is subject to the provisions of the 2008 Companies Act, the Company's Memorandum of Incorporation, King IV and any other applicable law or regulatory provision. If there is any conflict between the Charter and the Memorandum of Incorporation, the latter shall prevail.

COMPOSITION

The Board assumes responsibility for its composition by setting the direction and approving the processes for it to attain the appropriate balance of knowledge, skills, experience, diversity and independence to objectively and effectively discharge its governance role in according with King IV.

The board comprises a balance of executive and non-executive directors, with a majority of non-executive directors. A majority of the non-executive directors is independent. The size of the board should also be considered taking account of the need for a sufficient number of members that qualify to serve on the committees of the board.

Directors are appointed through a formal process and the Remuneration and Nomination Committee assists with the process of identifying suitable candidates to be proposed to the shareholders. Non-executive directors will be appointed for a three-year term and Non-Executive Directors will not ordinarily serve more than three terms. Directors serving for longer than three terms will be subjected to a more rigorous review of their independence and performance by the Board, through the Remuneration and Nomination Committee. Non-Executive Directors may continue to serve in an independent capacity for longer than nine years if upon an assessment by the Board conducted every year after nine years, it is

concluded that the member exercises objective judgement and there is no interest, position, association or relationship which, when judged from the perspective of a reasonable and informed third party, is likely to influence unduly or cause bias in decision-making. Directors retiring by rotation in the normal course of events will be recommended through the Remuneration and Nomination Committee for re-election or otherwise based on past performance, contribution and the objectivity of business decisions.

The chief executive officer and the chief financial officer are *ex officio* members of the board.

A formal induction programme is established for new directors.

Inexperienced directors will be developed through mentorship programmes.

Continuing professional development programmes are implemented which ensure that directors receive regular briefings on changes in risks, laws and the environment.
