Consolidated and Separate Annual Financial Statements for the year ended 31 December 2023

Notes to the Consolidated and Separate Annual Financial Statements

2. New Standards and Interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the Group has adopted the following relevant standards and interpretations that are effective for the current financial year and that are relevant to its operations:

International tax reform - Pillar two model rules - amendments to IAS 12

The amendments incorporate into IAS 12, taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development. As an exception, deferred tax assets and liabilities shall not be recognised, nor information about them disclosed related to Pillar Two income taxes. Disclosures about applying this exception to deferred tax are required. Any current tax income or expense related to Pillar Two income taxes is required to be disclosed separately. In addition, where the legislation is enacted or substantively enacted, but not yet in effect, management are required to disclose known or reasonably estimable information of the entity's exposure to Pillar Two taxes arising from that legislation.

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

Initial application of IFRS 17 and IFRS 9 - Comparative information

A narrow-scope amendment to the transition requirements of IFRS 17 for entities that first apply IFRS 17 and IFRS 9 at the same time. The amendment regards financial assets for which comparative information is presented on initial application of IFRS 17 and IFRS 9, but where this information has not been restated for IFRS 9. Under the amendment, an entity is permitted to present comparative information about a financial asset as if the classification and measurement requirements of IFRS 9 had been applied to that financial asset before. The option is available on an instrument-by-instrument basis. In applying the classification overlay to a financial asset, an entity is not required to apply the impairment requirements of IFRS 9.

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

Deferred tax related to assets and liabilities arising from a single transaction - Amendments to IAS 12

The amendment adds an additional requirement for transactions which will not give rise to the recognition of a deferred tax asset or liability on initial recognition. Previously, deferred tax would not be recognised on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting profit or loss. The additional requirement provides that the transaction, at the time of the transaction must not give rise to equal taxable and deductible temporary differences.

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

Disclosure of accounting policies: Amendments to IAS 1 and IFRS Practice Statement 2

IAS 1 was amended to require that only material accounting policy information shall be disclosed in the consolidated and separate annual financial statements. The amendment will not result in changes to measurement or recognition of financial statement items, but management will undergo a review of accounting policies to ensure that only material accounting policy information is disclosed.

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

Consolidated and Separate Annual Financial Statements for the year ended 31 December 2023

Notes to the Consolidated and Separate Annual Financial Statements

2. New Standards and Interpretations (continued)

Definition of accounting estimates: Amendments to IAS 8

The definition of accounting estimates was amended so that accounting estimates are now defined as "monetary amounts in consolidated and separate annual financial statements that are subject to measurement uncertainty."

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

Classification of Liabilities as Current or Non-Current - Amendment to IAS 1

The amendment changes the requirements to classify a liability as current or non-current. If an entity has the right at the end of the reporting period, to defer settlement of a liability for at least twelve months after the reporting period, then the liability is classified as non-current.

If this right is subject to conditions imposed on the entity, then the right only exists, if, at the end of the reporting period, the entity has complied with those conditions.

In addition, the classification is not affected by the likelihood that the entity will exercise its right to defer settlement. Therefore, if the right exists, the liability is classified as non-current even if management intends or expects to settle the liability within twelve months of the reporting period. Additional disclosures would be required in such circumstances.

The effective date of the amendment is for years beginning on or after 01 January 2023.

The impact of the amendment is not material.

2.2 Standards and interpretations not yet effective

The Group has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the Group's accounting periods beginning on or after 01 January 2024 or later periods:

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

If a parent loses control of a subsidiary which does not contain a business, as a result of a transaction with an associate or joint venture, then the gain or loss on the loss of control is recognised in the parents' profit or loss only to the extent of the unrelated investors' interest in the associate or joint venture. The remaining gain or loss is eliminated against the carrying amount of the investment in the associate or joint venture. The same treatment is followed for the measurement to fair value of any remaining investment which is itself an associate or joint venture. If the remaining investment is accounted for in terms of IFRS 9, then the measurement to fair value of that interest is recognised in full in the parents' profit or loss.

The effective date of the amendment is to be determined by the IASB.

It is unlikely that the amendment will have a material impact on the Group's consolidated and separate annual financial statements.

Lack of exchangeability: amendments to IAS 21

The amendments apply to currencies which are not exchangeable. The definition of exchangeable is provided as being when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations. The amendments require an entity to estimate the spot exchange rate at measurement date when a currency is not exchangeable into another currency. Additional disclosures are also required to enable users of financial statements to understand the impact of the non-exchangeability on financial performance, financial position and cash flow.

The effective date of the amendment is for years beginning on or after 01 January 2025.

It is unlikely that the amendment will have a material impact on the Group's consolidated and separate annual financial statements.

Consolidated and Separate Annual Financial Statements for the year ended 31 December 2023

Notes to the Consolidated and Separate Annual Financial Statements

2. New Standards and Interpretations (continued)

Supplier finance arrangements: amendments to IAS 7 and IFRS 7

The amendment applies to circumstances where supplier finance arrangements exist. These are arrangements whereby finance providers pay the suppliers of the entity, thus providing the entity with extended payment terms or the suppliers with early payment terms. The entity then pays the finance providers based on their specific terms and conditions. The amendment requires the disclosure of information about supplier finance arrangements that enable users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows as well as on the entity's exposure to liquidity risk.

The effective date of the amendment is for years beginning on or after 01 January 2024.

It is unlikely that the amendment will have a material impact on the Group's consolidated and separate annual financial statements.

Non-current liabilities with covenants: amendments to IAS 1

The amendment applies to the classification of liabilities with loan covenants as current or non-current. If an entity has the right to defer settlement of a liability for at least twelve months after the reporting period, but subject to conditions, then the timing of the required conditions impacts whether the entity has a right to defer settlement. If the conditions must be complied with at or before the reporting date, then they affect whether the rights to defer settlement exists at reporting date. However, if the entity is only required to comply with the conditions after the reporting period, then the conditions do not affect whether the right to defer settlement exists at reporting date. If an entity classifies a liability as non-current when the conditions are only required to be met after the reporting period, then additional disclosures are required to enable the users of financial statements to understand the risk that the liabilities could become repayable within twelve months after the reporting period.

The effective date of the amendment is for years beginning on or after 01 January 2024.

It is unlikely that the amendment will have a material impact on the Group's consolidated and separate annual financial statements.

Lease liability in a sale and leaseback: IFRS 16

The amendment requires that a seller-lessee in a sale and leaseback transaction, shall determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

The effective date of the amendment is for years beginning on or after 01 January 2024.

It is unlikely that the amendment will have a material impact on the Group's consolidated and separate annual financial statements.
